TO PLACE TELEPHONE CALLS TO:

A map of Illinois is shown with various cities and area codes marked. The cities include Rockford, Chicago, Joliet, Rock Island, Peoria, Bloomington, Springfield, Decatur, Urbana-Champaign, East St. Louis, and Carbondale. Area codes 312, 815, 309, 217, and 618 are also indicated. Dashed lines separate the state into regions corresponding to these area codes. Four numbered lines point from the text instructions on the right to specific locations on the map: line 1 points to Chicago (area code 312), line 2 points to the Chicago area, line 3 points to the Urbana-Champaign area, and line 4 points to the Urbana-Champaign area.

- 1. Local Calls Within Area Code 312**
Dial 9 and the number wanted. These calls will be charged, in message units, to the department billing.
- 2. Long Distance Calls Outside Illinois**
Dial 9, the area code, and the number wanted. Charges will appear on the department toll charge listing.
- 3. Long Distance Calls to Points in Illinois (Except Urbana-Champaign Campus; see 4.)**
Dial 9, the area code, and the number wanted. The Route Advance System will first attempt to place the call via WATS. If WATS is busy, the call will be routed via the toll network, and charges will appear on the department toll charge listing.
- 4. Calls to the Urbana-Champaign Campus**
Dial 174, then 3, then the last four digits of the number wanted. There is no charge for these calls.

**For Urbana campus telephone information:
dial 174 then 3-0920.**

**Urbana campus Directories
may be ordered through the
Chicago Circle Purchasing Office.
Price is subject to change.**

HOW TO USE CAMPUS PHONES

The University's telephone system serves the Medical Center and Chicago Circle campuses. It permits callers outside the University to dial each telephone extension directly. It is not necessary to dial a general number and be connected by a switchboard operator. However, when you give someone off campus your number, give the University prefix, 996, followed by the four-digit number of *your extension*.

To call extensions at Chicago Circle or the Medical Center dial only the *last four digits* of the number. Consult your staff directory for this information.

Long Distance Person-to-Person, Collect, Credit-Card, and Third-Party-Billing Calls

Dial 9, then 0, then the area code, and then the number. When the operator comes on the line, give her the information. These types of calls are approximately 40 percent higher in cost than direct dialing.

To Transfer a Call

Only calls from outside the University can be transferred. To transfer a call, depress the phone plunger *once* only. When the operator answers, give her the number to which the call is to be transferred.

Conference Calls

To establish a conference between as many as five people, dial 7036 and give the operator the conference information; remain on the line while she completes the arrangements.

To set up a conference in conjunction with an incoming call, depress the plunger once to signal the operator and ask for the conference operator. Give the conference operator the required information, stating, in addition, that you have an outside party on the line.

Telephone Repair Service

Dial 0 and give the University operator the information.
